# YOUR IMPACT IN UKRAINE

## BACKGROUND

Many families in Ukraine have been struggling, far from home and trying their best to provide for their children under stressful and difficult circumstances. Due to the ongoing conflict, public services have been under extreme pressure, and the needs of displaced people and their host communities have shifted. The safety, dignity, and mental health of vulnerable people, including those with disabilities, women, children, and the elderly, are of key concern.

## KEY IMPACT

With your generous gift this Advent season, you have helped provide families and children with education and psycho-social support.

Thanks to your support, we are able to provide distance learning tools, ensuring that learning continues, and deliver schools kits to children who left much behind when fleeing their homes.

Mental health services will be offered to those who need it most during this traumatic period, and people will be given the tools and ideas, including spiritual support, to work and flourish within their new communities.

*Because of your generosity, these communities will be able to meet the needs of their families who miss their homes and pray for the chance to be reunited with their loved ones.*
